

2012 Pecos Conference

Papers & Posters

Paper Presentations

As in past years, field reports will be presented on both Friday and Saturday, scheduled throughout the day. Presentations should be designed to be 10 minutes in length. We will have a microphone, but there will be no audio-visual equipment available. Some folks have asked if they can bring posters/maps to display at the front of the room during their talk or handouts, and that is fine. If you are interested in presenting, please register your paper on the conference registration form. If you decide to present after you have already registered, you can still do so by emailing your paper title to sue_eininger@nps.gov. If you have any questions concerning the field report sessions, call Sue Eininger at (505)757-7231 or email her at sue_eininger@nps.gov.

Poster Sessions

Poster sessions will be scheduled for Friday and Saturday. Presentation will be scheduled for display all day from 9:00 am to 4:00 pm. Presenters are asked to be available from 11:00 am to 1:00 pm to answer questions. Size restrictions have not been established, but all posters should be self-supporting and attached to backing material such as foam-core. Poster stands and tables will be available, however, if you have specific needs for displaying your poster and want to bring your own stand, please do so. Please register your poster title on the conference registration form. If you decide to present a poster and have already registered, you can still do so by emailing your poster title to Jacquelin St.Clair at the address below. If you have any questions concerning the poster sessions, call Jacquelin St. Clair at (505)988-6751 or email her at jacquelin_st_clair@nps.gov
